

New Product – Key Facts

Product:
Steel Pipe Cutter

Application:

- designed to cut steel pipes 10-60mm (1/8"-2")

Designed to keeping the cutter squarely on track, the rollers smooth down the surface leaving a clean-cut ready for jointing or threading

It has one fast cutting wheel and two wide rollers

The cutting wheel is machined and profiled from solid steel and the cutting edge is radiused as a sharp edge would quickly wear down

The body is cast from unbreakable SG ductile iron

The precision manufactured steel mainscrew is designed for easy operation and high strength.
